EXPERIENCE

Software Developer

May 2022 - Present

[Amdocs India, Pune](#) | Tech: React, Redux, MUI, JavaScript

- Provided comprehensive support for Amdocs products, including LCEP, B2B, and B2C applications, resolving an average of 2-3 cases daily with a high satisfaction rate.
- Collaborated with the B2B application development team, contributing to the development of specific application components leading to an improvement in application performance.

Senior Executive - Designer

Nov 2019 - Feb 2022

[Bajaj Allianz Life Insurance, Pune](#) | Tech: React, JavaScript, Illustrator, Figma, Photoshop

- Led design and development of the Compliance Portal using ReactJS, enhancing UI/UX and resulting in an 80% improvement in user satisfaction.
- Created user interfaces for new and existing product landing pages, application UI screens, and comprehensive branding collateral for the marketing division.

Web/UI/UX/Graphic Designer

Jan 2019 - Nov 2019

[Excell Technology Venture \(Autovista\), Pune](#) | Tech: JavaScript, Illustrator, Figma, Photoshop

- Handled UI development for the Loankaro.com web application, which significantly enhanced user engagement.
- Created branding materials for Autovista and designed UI screens for mobile applications, contributing to increased brand recognition.

Graphic Designer

Jun 2018 - Jan 2019

[Global Advertisement Services \(AffinityX\), Pune](#) | Tech: Illustrator, Photoshop

- Spearheaded conceptualization and creation of advertising campaigns for international clientele, leveraging expertise in Adobe Illustrator and Photoshop.

PROJECTS

Gemini-Powered RAG Chatbot with Multimodal Input

Aug 2025 - Sep 2025

An intelligent chatbot built with the Google Gemini API and a RAG architecture, featuring a dual-mode interface for general Q&A and contextual analysis of user-uploaded files.

- Core Engine: Powered by the Google Gemini API and a Retrieval-Augmented Generation (RAG) framework for high-accuracy, contextual answers.
- Dual-Mode Interface: Includes a simple switch to toggle between a general conversational mode and a file analysis mode.
- Multimodal File Analysis: Users can upload and ask questions about various file types, including PDFs, text, images, and audio.

Compliance Portal

Oct-2020 to Aug-2021

The Compliance Portal manages the approval process of marketing advertisements, simplifying record-keeping and facilitating communication between marketing and compliance departments to replace Outlook-based workflows.

- Gathered requirements, performed analysis, and designed the project architecture.
- Developed and designed the single-page application utilizing ReactJS, with UI/UX implemented via Figma and Adobe Illustrator.
- Collaborated closely with the back-end team to seamlessly integrate application flow with server and database systems.

Loankaro.com

Jun-2019 to Oct-2019

An online loan service provider partnered with leading banks to process client loan requirements based on their needs and document availability.

- Involved in requirement gathering, analysis, and project design.
- Designed user interfaces with Adobe Illustrator and Photoshop.
- Constructed the web application using HTML, CSS, and JavaScript.
